

NIKITA HRYSHCHUK

Goal: Middle PHP developer or Full-stack web developer post.

23 years old

Kharkiv, Ukraine

Technical skills:

- Strong knowledge of: PHP, Yii2, SQL, Laravel, JS, TS, Angular, HTML, CSS, Cordova, Magento2
- Knowledge of Linux operating system
- Version control systems: Git, SVN
- Knowledge of C#
- Level of English: pre-intermediate

Education:

- September 2014 - June 2018.

I studied at the Kharkiv National University of Radioelectronics with a degree in Systems Engineering (full-time education). Bachelor's degree.

- September 2018 - January 2019

Graduated from Green Forest language school.

Work experience:

- November 2016 - January 2018

PHP developer (freelance)

- January 2018 - Present

PHP developer in IT company

About work experience:

Worked on projects for automating business processes. Implemented various tasks: integration with

Google API (Sheets, Drive, Maps), Paypal API; PDF manipulation; web editors for SVG and more. Most

often in the projects I used Yii2 and Angular. I had experience with

Cordova: project from scratch,

selection of plugins, updating existing ones, etc. Ready to learn other technologies used in your project.
